EXPERIENCE

Regular People
Digital Designer (Freelance)
Aug 2025 – Present

- Designed cross-channel brand and advertising graphics for **11** early-stage clients across an **8-month** engagement
- Contributed to marketing and advertiser placements supporting successful Off-Broadway runs, including a **7-week sold-out run** (*Well, I'll Let You Go*)

AKADEMIA Test Prep
Digital Marketing & Design Coordinator
Mar 2023 – Feb 2025

- Led end-to-end design across product, web, and marketing surfaces, scaling a unified design system across **100+** cross-channel deliverables
- Improved usability and clarity across instructional and marketing experiences spanning digital and print environments

Meal Village
Product & Visual Designer (Contract)
Sept 2022 – Mar 2023

- Designed early-stage product flows and mobile prototypes for a Chicago meal delivery platform serving **14,000+ residents**
- Created investor-facing product narratives and interactive prototypes, increasing demo engagement by **20%**
- Supported product-driven growth initiatives behind **+2K** newsletter subscriber growth

Jellysmack
Joined AMA Digital, acquired by Jellysmack in 2022
Lead Product & Brand Designer
Oct 2021 – Mar 2023

- Led end-to-end design of a creator analytics platform supporting **30+ creators (60M+ subscribers, 20B+ views)**, defining information architecture and interaction models
- Designed analytics and experimentation workflows enabling creators to interpret performance data and optimize content strategies
- Built and scaled a cross-functional design system with engineering, driving a **40% increase** in newsletter open rates
- Crafted product storytelling and high-fidelity prototypes contributing to **largest-client contract extension** and **Jellysmack acquisition**

Northwestern University Student Affairs Marketing
Graphic Designer
Sept 2020 – May 2022

- Designed multi-channel campaigns across **6 departments** spanning digital, print, and environmental systems
- Launched a campus-wide initiative driving **200+ applications** through interactive installations and QR-based flows
- Developed way-finding systems improving usability across campus environments
